

SUMMARY

Computer Science undergraduate entering the second year at Kumaraguru College of Technology, with a strong foundation in C, Python, and basic C++. Passionate about software development, problem-solving, and emerging technologies such as Artificial Intelligence and Machine Learning. Eager to apply technical skills in real-world projects, gain industry experience, and contribute effectively as an intern while continuously learning and growing.

PROJECTS

- Active Temperature Control Bottle — Best Project of the Year**
Technologies: Arduino, Peltier Module, Rechargeable Battery System
 - Led a team of 5 students in a Project-Based Learning (PBL) initiative to design and develop a working prototype of an active temperature control bottle.
 - Contributed to system design, hardware integration, testing, and project presentation while coordinating team activities and project execution.
 - Developed a prototype capable of heating or cooling liquids using Peltier-based thermal electric technology powered by rechargeable batteries.
 - Received **Best Project of the Year** recognition among 24 participating teams for innovation and practical application.

TECHNICAL SKILLS

- Programming Languages:** C, Python, Basic C++
- Hardware & Platforms:** Arduino
- Soft Skills:** Team Leadership, Problem Solving, Communication, Collaboration
- Languages:** Tamil (Native), English (Professional Working Proficiency), Badaga (Native/Fluent), Korean (Beginner)

EDUCATION

- Kumaraguru College of Technology** Coimbatore, India
B.E. Computer Science and Engineering — CGPA: 9.50/10.00 (Semester I) 2025 – 2029
- Higher Secondary Education (Class XII)** 2025
Percentage: 98.3%
- Secondary Education (Class X)** 2023
Percentage: 96.4%

CERTIFICATIONS & ACHIEVEMENTS

- Coursera** – Emerging Domains
- Coursera** – Emerging Domains in Computing
- Best Project of the Year** – Awarded among 24 teams for the Active Temperature Control Bottle project.
- Team Leader** – Led a 5-member team during the Project-Based Learning (PBL) program.
